Two boys built a house out of fear of a wolf. They did everything together and the house grew and changed according to their wishes. But then they got into an argument. They split up the house and started to compete against each other. And then the wolf came and scared them both. The boys ran as fast as they could, and they nearly destroyed the whole house before they realized that there was nothing to be scared of and as long as they tolerate each other they could live together in peace, even with the wolf.
