Now going for its 7th edition, **Production Value** is an eight-day residential workshop on scheduling and budgeting European feature films with budgets ranging from 2,5 to over 10 million Euro. Working in teams of two, Junior Line Producers and Junior Assistant-Directors from all over Europe are assigned real projects in development, brought to the workshop by their Directors and Producers. The teams are coached by top-level European Line Producers and 1st Assistant-Directors. Emphasis is on understanding different working conditions in Europe, and on the best practical and creative solutions. That's what makes **Production Value** so special. Directors and Producers of the projects play an important part in the process: they join the workshop towards the end to discuss the various concepts, options and results.

The workshop is completed by plenary sessions dedicated to general topics related to line producing and assistant directing, as well as case studies by the Seniors. A growing success initiative within the European film industry, **Production Value** is also a unique training model involving a situation so close to the real conditions that you won't forget!

For additional details, registration and making-of of the previous editions of this program, consult:
