## 1. INTRODUCTION

This Call for Proposals is in line with the MEDIA programme 2007-2013 as described in the proposal of the European Commission (see document COM (2004) 470 final – 2004/0151 (COD)).

The European Commission is responsible for the implementation of the MEDIA Programme and for the decision to make individual European Community grants. Nevertheless, the Education, Audiovisual & Culture Executive Agency administers the MEDIA Programme on behalf of and under the control of the European Commission.

NB: The Commission's proposal relative to the MEDIA programme has not yet been adopted by the European Legislator. However, in order to enable a rapid implementation of this programme after adoption of the legal basis by the European Legislator that should take place shortly and in order to allow the potential beneficiaries of community subsidies to prepare their proposals at the earliest date, the Executive Agency (EACEA) has decided to publish this Call for Proposals.

The present Call for Proposals does not involve the legal responsibility of the Agency. It can be cancelled and other types of Call for Proposals may be launched, with appropriate deadlines, in the case of substantial modifications in the legal basis by the European Legislator.

More generally, the implementation in 2007 of Call for Proposals is subject to the following conditions of which the implementation does not depend solely on the Commission or the Executive Agency (EACEA):

-adoption by the European Parliament and the Council of the European Union of the final text of the legal basis establishing the programme;

-adoption of the work programme relating to the MEDIA programme 2007 after referral to the programme committee; and

-adoption of the European Union budget for the year 2007 by the budget authority.

## **2. OBJECTIVE(S) - THEMES(S) - PRIORITIES**

### **2.1 Objectives of the Programme**

The global objectives of the programme are the following:

- (a) To improve the circulation of European audiovisual works by ensuring that the European audiovisual sector has access to European and international professional markets;
- (b) To improve the European and international public's access to European audiovisual works;
- (c) To encourage common actions between national film and audiovisual programme promotion organisations.

### **2.2. Themes**

This Call for Proposals is aimed at **European companies** whose activities contribute to the realisation of the objectives of the MEDIA Programme as described in the Council Decision. It explains how to submit a proposal with a view to obtaining a financial contribution from the Community.

The “[Education, Audiovisual and Culture Executive Agency](#)” (EACEA) has officially taken over the operational management of the MEDIA programme as of 1 January 2006.

### **2.3 Priorities**

The actions of the Promotion Policy of the MEDIA programme aim to:

**Action 1.** Access to markets for European professionals

- the main European and international television markets
- special-interest markets, particularly for animated films, documentaries, multimedia and new technologies.

**Action 2.** Promotion of European works from the production phase onwards

in question. Such support may take the form of co-production and financing initiatives and events.

**Action 3.** Creation of databases, and of computer tools aimed at professionals of European A/V networks  
Encourage the creation of a database and/or a network of databases on catalogues of European programmes, intended for professionals.

## 8. AWARD CRITERIA

The award criteria make it possible to assess the quality of the proposals submitted in the light of the objectives and priorities set out in the present Call for Proposals. The Executive Agency (EACEA) will decide to award grants within the limit of the budgetary resources available on the basis of the following criteria. The resources are allocated to the scheme as a whole and there is no division of potential funds between the five Action Lines.

The eligible applications will be ranked according to the award criteria defined and weighted below. Within the limit of the available budget, projects obtaining the highest scores will be selected.

The criteria will be given the weighting indicated below:

The European Dimension of the Project	25%
Impact on the Promotion & Circulation of European Audiovisual Works	25%
Quality and Cost-effectiveness of the action plan submitted	25%
Innovative aspects of the action	5%
Potential long term benefits of networks established	10%
The promotion of works from territories with a low audiovisual production capacity	10%

For the purposes of this stage, the below mentioned award criteria will be judged as follows, as appropriate to the individual proposal, and based on the information provided in the Proposal and in the Application forms (Annexe I):

- "The European dimension of the project":
  - the number and range of European works featured in the project;
  - the number and range of European professionals featured in the project;
  - the overall target audience of the project.

- "Impact on the Promotion and Circulation of European Audiovisual Works":

The following will be taken into account: the sales/co-production record, the mechanisms implemented by the applicant to facilitate market access for European audiovisual works, any active policy established by the applicant to encourage the promotion and distribution of European works featured, and the actions carried out to promote the project beyond the event.

The Executive Agency (EACEA) will take into consideration during the selection process the results achieved by applicants under the previous Call(s) for Proposals.

- "Innovative aspects of the action"

- the innovative aspect compared to previous year(s)/edition(s) and/or
- the innovative aspect within the market/industry and compared to competitors.

In case of first edition/new project, a market/marketing survey **MUST** be provided, demonstrating the viability and potential of the project. This survey must rely on figures and sources which are concrete, true and verifiable.

## 9. FINANCIAL CONDITIONS

The Executive Agency (EACEA) is not bound, by sole act of selecting a particular applicant, to agreeing to the level of financial support requested.

The amount of the financial contribution awarded by the Executive Agency (EACEA) is determined in consideration of the cost and nature of projects.

The award of a contribution does not infer any right to a grant in subsequent years.

Community Subsidies exist to encourage the implementation of projects which could not be carried out without EACEA support and which operate thanks to the principle of co-financing. The Executive Agency (EACEA) completes financing undertaken by the applicant, national, regional, etc, public funding and private sponsorship.

Under no circumstances may the amount awarded be greater than that applied for.

Applicants from States which are members of the Euro Zone must present their budget and reports exclusively in Euro. **All other applicants must present their budget in both Euro and their national currency. Currency conversions in the Budget Form should be calculated using the official exchange rate applicable at the beginning of the previous month of the relevant deadline for submission of the proposals under the present Call for Proposals (i.e. December, 2006).** These exchange rates can be

obtained from the national MEDIA Desks and Antennae and from the European Commission website:

<http://europa.eu.int/comm/budget/inf euro/index.cfm?Language=en>

The exact rate used should be specified within the space provided on the Budget Form.

Applicants should note that currency conversions must be made on an item by item basis and the sub-totals and totals of each budget sub-category calculated from the converted euro amounts for each item (and not simply converted from the equivalent subtotal in a national currency), so that both national currency and euro budgets are coherent and totally correct.

Applicants are strongly advised to re-check all automatic calculations with a simple calculator.

The budget must be balanced and clearly indicate the costs for which a Community co-financing is requested.

Applicant must specify in the budget all sources and values of contributions anticipated / sought for the project during the same financial year either concerning the same action or other actions implemented as part of the organisation's activities.

Under no circumstances may the contribution of the Executive Agency (EACEA) give rise to a profit for the beneficiary. Profit is defined as having achieved greater revenues than costs. Any profit will result in a proportionate reduction to the contribution finally awarded.

The bank account specified in the Application forms must enable any Executive Agency (EACEA) contribution to be identified. If the contribution paid into this account generates any interest or equivalent profit (under the relevant national law of the country in which the account is based), the beneficiary must, upon submission of the Final report, declare this interest resulting from any pre-financing. The interests or equivalent profit must be recovered by the Executive Agency (EACEA) when the contribution balance is paid.

**The beneficiary is committed to carrying out the project as presented in the application form.**

## **9.1 Payment Procedure**

The financial support granted in the framework of this Call for Proposals will take the form of subsidies as defined in Article 6 of Council Decision 2000/821/EC.

Should an application be approved from the Commission, an agreement (in Euro) specifying the conditions of the grant and the level of EACEA financing will be concluded between the Executive Agency (EACEA) and the beneficiary. Original copies

of this agreement must be signed and returned to the Executive Agency (EACEA) who will be the last party to sign.

The payment of the Community's contribution will be normally made as follows, in two instalments:

- A first pre-financing payment of 75% of the total financial support within 45 days of signature by the two parties of the contract between the Executive Agency (EACEA) and the beneficiary and after any eventual guarantee(s) will have been received. Pre-financing is considered as a downpayment providing cash flow to the beneficiary;

- The remaining part of the financial support following the presentation and acceptance by the Executive Agency (EACEA) of the Comprehensive Activity Report and a Final Financial Statement giving detailed breakdowns of the final costs and revenues of the project and duly certified by an approved independent chartered accountant or approved external auditor, as well as all proper accounting documents for the expenses made following the EACEA's requirements.

The amount of this contribution depends on real costs incurred by the beneficiary and the levels of co-financing ultimately obtained. Should actual expenses incurred by the beneficiary for the implementation of the project be lower than the costs foreseen in the provisional application budget, the Executive Agency (EACEA) will apply the financing rate set out in the contract. If appropriate, the beneficiary will be required to reimburse any surplus already paid by the Executive Agency (EACEA) as pre-financing payment.

## **9.2 Audit of Accounts**

An external audit of the applicant's accounts (carried out by an approved independent chartered accountant/external approved auditor) may be required to ensure payment completion in case of any 'management risks.' In such cases, the auditors report should be annexed to the request for payment in order to certify that the accounts concerned are truthful, accurate and supported by adequate justifications.

Should the project be selected, an agreement shall be signed between the Executive Agency (EACEA) and the beneficiary, by which the beneficiary shall undertake to allow Commission/Executive Agency (EACEA) staff, staff from the Court of Auditors of the European Communities and persons authorised by them, appropriate access to the sites or premises where the project is being carried out and to all documents relating to the technical and financial management of the operation. Access by persons authorised by the Commission/Executive Agency (EACEA) may be subject to confidentiality arrangements to be agreed between the Commission/Executive Agency (EACEA) and the beneficiary.

The beneficiary shall also agree to the Commission/Executive Agency (EACEA) and the Court of Auditors of the European Communities verifying the use to which the financial contribution is put in accordance with the Council Regulation 1605/2002 of 25 June

2002 and the Commission Regulation 2342/2002 of 23 December 2002 applicable to the general budget of the Commission, as amended, throughout the duration of the agreement and for five years after its end date.

The beneficiary shall also undertake to ensure that any subcontractors accept these same obligations.

Checks by the Commission/Executive Agency (EACEA) or the Court of Auditors of the European Communities may be carried out on the basis of documents or on the spot.

### **9.3 Guarantee**

The Executive Agency (EACEA) may request any beneficiary to produce a guarantee before any payment in order to reduce the financial risks involved in the payment of pre-financing contributions.

This guarantee aims to make the guarantor liable for all obligations of the beneficiary of a EACEA contribution.

This financial guarantee, which must be made in Euro, is to be provided by a recognised financial or banking institution established in any of the European Union's Member States.

Subject to prior agreement by the Executive Agency (EACEA), this guarantee can be replaced by the personal liability of a third party or the beneficiary involved in the agreement concerning the project.

The financial guarantee will be returned within 2 months upon final payment of the subsidy, conforming to the conditions set out in the agreement.

### **9.4 Double-funding**

One project may give rise to the award of only one grant from the Community budget to one beneficiary. The project proposed by the applicant cannot receive double funding.

Applicants must indicate in the application for support what other applications for financial support they have submitted or will be submitting to the European Institutions during the same year, indicating for each support the Community Programme concerned and the amount of the support.

### **9.5 Eligible Costs**

Period of eligibility of costs : The period of eligibility of costs will be adapted according to the nature and duration of execution of the project (preparation, implementation and follow-up).

When the nature of the project requires and upon request by the applicant, the costs incurred before the implementation of the project/event can be considered as eligible. The period of eligibility of costs cannot exceed a period of maximum 9 months before the start date of the project/event and ends at the latest 2 months after the end date of the project/event.

The eligibility period of costs can only start **at the earliest on 01. September, 2006.**

**Applicants MUST tick the appropriate box if relevant to their project, in the Budget Form (Annex I b) of applications forms.**

Candidates should indicate clearly in the application the nature of the project and the starting and ending date for the incurrence of expenditure. Candidates which currently have financial support under a previous or another MEDIA scheme and Call for Proposals must ensure that the period of eligible costs for the new application does not overlap with the existing period, in particular with regards to Administrative and Staff/Personnel costs.

**Costs incurred prior to the beginning of the period of eligibility of costs considered will not be accepted.**

Only Cash costs identified in the Budget Form attached to the present Call for Proposals (Annex I b) will be considered eligible costs.

Eligible expenses may only be charged to the project over the duration of the period of preparation, implementation and follow-up of the project/event and during the period of eligibility of costs.

Costs which are considered as eligible are those which are:

- necessary for the implementation of the event/project and directly linked to it, written in the provisional budget attached in the agreement, reasonable and in conformity with the principles of sound financial management and cost-effective;
- generated during the eligible period of costs as defined in the agreement;

- actually incurred by the applicant, registered in the beneficiary's accounts in accordance with the relevant accountancy principles, and have been declared according to national financial and social security regulations;
- identifiable and verifiable on the basis of justifying documents.

Administration and Staff costs must be kept to a minimum and in any case cannot exceed 40% of the total cost of the project. For the purposes of this calculation, the following budget headings are defined as Administrative and Staff costs : "1.1. Gross salary/Personnel (including labour costs and social charges)" and "9. Overheads".

No costs may be assigned to different category of costs in the final accounts if it has previously been assigned to a different category in the budget.

The amounts indicated by the applicant under the different headings of the budget are considered indicative. The applicant may therefore adjust the budget submitted provided that this adjustment of expenditure does not affect the implementation of the project and the financial impact is limited to a transfer between items that does not exceed 10% of the total of the eligible costs. In such cases, the applicant shall inform the Executive Agency (EACEA). **On the other hand, if the estimated modifications exceed more than 10% of the total of the eligible amounts, the beneficiary requires a prior written authorisation from the Executive Agency (EACEA).**

A beneficiary of a community support is obliged to maintain a clear analytical accounting system for the costs of the supported project. This accounting and classification system will facilitate the verification and certification of the final costs by the independent chartered accountant/approved external auditor necessary for the payment of the financial contribution. The independent audit of all final accounts is mandatory.

The beneficiary's accounting procedures must allow the reconciliation of costs and revenues declared in relation to the project supported with the corresponding justifying evidence and the organisation's accounts.

#### 9.5.1 Direct Eligible Costs

Direct eligible costs are those which respect the general conditions of eligibility set out in the previous paragraph, are necessary for and specific to the implementation of the action/project and can be directly attributed to it.

The following direct costs are considered eligible, as long as they meet the following criteria:

- Costs relating to the purchase of equipment (new or second hand) are eligible as long as they are depreciated using the relevant and commonly accepted accountancy

principles. Only the amortised cost relating to the duration of the project/action is eligible.

- Costs derived from other contracts undertaken by the beneficiary or its partners to carry out the project/action, as long as the conditions set in Article II.9. of the agreement are met.
- All the following described direct costs are eligible:

#### **A. PERSONNEL COSTS**

##### **a) Costs relating to employees of the applicants organisation or company.**

- Personnel costs should be calculated with reference to the actual time undertaken by personnel on the project and on the basis of the actual gross salary or wages together with any labour costs and other charges directly relating to the employment of personnel (e.g. social security contributions). Where several applications for funding have been submitted by the applicant in response to Call for Proposals EACEA/11/06, personnel involved in more than one of these projects should be identified, such as to avoid any double funding of costs.
- Records of the time devoted to the project by personnel should be detailed according to the type of staff allocated to the project (e.g. management, executive, administrative or secretarial level), the number of staff per category, the period during which they have been charged to the project and their cost per head.

N.B. These costs must be actual costs incurred by the beneficiary; personnel costs of other organisations are eligible only if they are directly paid or reimbursed by the beneficiary.

##### **b) Travel and subsistence of personnel**

- Travelling and subsistence costs may be charged in accordance with the internal rules of the applicant and shall be considered as acceptable costs in so far as these are not higher than those indicated in the table below (see link below).
- Costs allowable shall be limited to the use of first class rail and economy class air travel, following the regulations applied by the Commission. For all other types of travel (e.g. use of private vehicles, car hire, taxi expenses), these costs shall be considered as allowable costs as long as they are necessary to the proper performance of the project and duly justified.
- Travelling and subsistence costs should be detailed according to the number of journeys foreseen by individual members of staff and the cost per head of each trip (including any daily allowances paid to them for subsistence).

The table with the maximum authorized amounts considered eligible by the Executive Agency (EACEA) as accommodation and subsistence costs is available under the following link:

[http://europa.eu.int/comm/europeaid/perdiem/index\\_en.htm](http://europa.eu.int/comm/europeaid/perdiem/index_en.htm)

The amounts specified in this table include all costs associated with the stay in the country concerned. If there is no overnight stay, these maximum amounts must be reduced by 50%.

Within these limits, the reimbursement of accommodation and subsistence expenses may be made on an actual or fixed cost basis. However, if the internal regulation of the institution of the person making the journey imposes a lower limit than the amounts detailed in the above table, the former must be used as a basis of calculation.

In the event the professional benefits from a lunch / diner for free, the maximum amount of subsistence is reduced as follow:

- 1) if the professional is given one meal free-of-charge, the maximum amount for the daily per diem is reduced by 25 % for the day concerned,
- 2) if the professional is given two meals free-of-charge, the maximum amount for the daily per diem is reduced by 50 % for the day concerned,
- 3) if the professional is given two meals and the breakfast free-of-charge, therefore the maximum amount for the daily per-diem corresponds to 40 % of the a.m. amounts.

## **B. THIRD PARTY ASSISTANCE**

**a) Costs relating to the provision of services by persons who are not employees of the applicant's organisation or company, for example:**

- Expenditure relating to persons taken on exclusively for the duration of the event, such as interpreters, press attaches, publicists, hostesses, etc.
- Any fees and expenditures relating to the provision of constancy services by experts in audio-visual matters to European professionals participating in the event to which the project relates.
- Costs should be calculated with reference to the amount of the remuneration paid to any third parties by the applicant.

Records of the time devoted to the project by third parties should be detailed clearly according to the type of service provided, the period during which they have been charged to the project and their cost per head (duration, number, individual cost).

**b) Travel and subsistence of Third Parties, decision-makers, journalists and A/V professionals**

Expenditure linked to travel and subsistence of:

- Decision-makers (commissioning editors, buyers, financiers, etc.), invited to take part in the event to which the project relates with the aim of fostering the financing of European productions presented at the event and their access to the market.
- Journalists and other persons invited to attend with the aim of enhancing the exposure given to the activities of the European professionals participating in the event to which the project relates.
- Costs relating to the travel and subsistence of third parties, decision-makers, journalists and A/V professionals should be detailed under the present cost category and calculated according to the provisions of Section A. b) above. In particular, expenditure must be detailed according to the number of such persons foreseen and their cost per head in terms of travel to and subsistence during the event.
- Costs related to decision makers outside of the European Union are not deemed acceptable and shall have to be deducted from the overall budget presentation, as well as from the Media Programme's contribution, unless the necessity of their involvement within the proposal is duly justified.

Under the present Call for Proposals, are considered as decision-makers the persons who can have a significant role in the financing and/or co-production and/or distribution/sale of the projects/audiovisual works presented in the frame of the proposed action.

Any transportation and subsistence cost linked to other professionals of the audiovisual sector and in particular to Training institutes, Festivals and similar initiatives' representatives, cannot be encompassed in the budget unless their role within the action is clearly described, demonstrated and justified.

**C. RENTAL OF SURFACE-AREA AND STAND COSTS/ EQUIPMENT COSTS**

The nature and breakdown of each cost included under this heading must be detailed separately according to the type of expenditure foreseen and the period during which it has been charged to the project. Costs relating to the rental of surface area must be detailed according to the total surface area, and the cost per square metre.

**a) Rental of surface-area:**

Expenditure concerning the rental of spaces and/or venues during the event to which the project relates. The **size** of the surfaces rented should be **mentioned**.

**b) Stand costs / Equipment costs:**

- The working and exhibition areas set aside for the promotion of the activities of European audio-visual professionals participating in the project over the duration of the event to which the project relates,
- The logistic and professional service-structure provided by the applicant to such participants, in particular in the form of screening booths, projections rooms and promotional tools such as display units,
- Expenditure linked to the design, construction, decoration and modification of any stands necessary for the implementation of the project as well as maintenance and storage costs of the stand over the duration of the project,
- Furniture, furnishings, as well as audio-visual, computing and technical equipment and other items purchased or leased for the duration of the event to which the project relates may also be included under this heading in so far as such items have not been specifically charged under any other category of cost (e.g. as consumables),
- Rental or leasing of equipment is permitted provided that the costs are reasonable, have been properly examined and do not exceed the equivalent purchase costs,
- Purchase costs will only be allowable in exceptional circumstances where this results in lower costs than would otherwise be possible. In such cases, costs incurred for the period in question shall be calculated and charged per Activity using normal accounting practice (i.e. depreciation).

**D. ADVERTISING AND PROMOTION COSTS**

**a) Advertising costs:**

Expenditure linked to the design, lay-out and publication of advertisements (including bill-boards and sign-posting) as well as the buying of advertising space and covering the cost of running press campaigns during the period of implementation of the project (mention number, items, units).

**b) Publication costs:**

Expenditure linked to the development, translation and publication, in printed and/or electronic form of brochures and catalogues intended for dissemination and/or consultation during the period of implementation of the project.

Each item must be detailed separately according to the type of expenditure foreseen. For publication costs, details should also be given of the number of copies to be printed/made.

**c) Promotional and public relations activities:**

Expenditure relating to:

- the preparation, organisation and holding of any press conferences, professional meetings and in general all promotional activities, including social events, designed to enhance the exposure given to the activities of European audio-visual professionals participating in the project over the duration of the event to which the project relates. Specify the type of promotional event to be organised.
- the elaboration and production of promotional material (e.g. video trailers) designed to enhance the exposure given to the activities of European audio-visual professionals participating in the project.

Each item must be detailed separately according to the type of expenditure foreseen.

**E. COMPUTING AND DATA-BASE COSTS**

**a) Computing costs:**

Expenditure relating to:

- internal computing costs, including hardware,
- costs related to connect time to on-line services where this is necessary for the proper implementation of the project.

**b) Data-base costs:**

Expenditure related to the development, production and maintenance of software and data-bases necessary for the proper implementation of the project.

These costs may be charged to the project in so far as such costs are not specifically charged under any other category of cost:

- on the basis of the time actually devoted to such work defined in the Contract; and/or,

- with reference to the actual costs incurred in the development, production and maintenance of any software or data-bases, where the costs of such equipment and software have not been included in the overheads.

Each item must be detailed separately according to its unit cost and the period during which it has been charged to the project. Computing and data-base costs may only be charged to the project over the duration of the period of preparation, implementation and follow-up of the project.

## **F. PRINTS AND PRIZES**

The following costs particularly apply to the Action 5.

Nevertheless, some of these costs incurred in the frame of the other Actions supported in the present Call for Proposals, may be written under this category, should they duly justified.

All costs must be detailed.

### **a) Competitions and Prizes**

Expenditure relating to the preparation, organisation and holding of competition events and prize ceremonies, designed to enhance the exposure given to the activities of European audio-visual professionals participating in the project. These costs must be detailed per event, including specification of the nature of each event organised.

Costs for cash and or other prizes may be included in this category so long as they are actually incurred by the applicant organisation.

### **c) Transport fees of prints**

Actual costs relating to the transport and insurance costs for film prints.

### **d) Sub-titling and Translation of prints**

Actual costs for the translation and sub-titling of the prints of films participating in the project where these are directly related to this participation.

## **G. FINANCIAL COSTS**

In the case of the normal operation of the applicants Bank Account those charges incurred in the payment of the expenses of the project may be charged provided that they comply with the general rules set out above.

Costs related to bank guarantee that may be required by the Executive Agency (EACEA) can be written in this category.

Bank Financing costs for the operation of the project may also be considered as eligible provided the following conditions are met.

The beneficiary should maintain a separate bank account for the payment of all of the expenditure of each individual project. All payments received for the project should be immediately transferred into said account upon receipt. Any financing charges related to an individual project should be debited to this account. The extracts of the account and accompanying explanatory note for the calculation of the charges should be sent separately with the Final Report.

## **H. OTHER COSTS**

Any other costs which the applicant wishes included in the budget which do not fall into any of the above-mentioned categories, but are related to the project. These costs should be in line with the principles set out in this guide, clearly detailed and duly justified in the accompanying explanatory note. The inclusion of such costs is at the sole discretion of the Executive Agency (EACEA).

### **9.5.2. Indirect Eligible costs (Overheads)**

Overhead costs encompass the following categories:

- a) Premises and related expenses**, for example rent, insurance, administration and management costs, etc.
- b) Office expenses and consumables**, for example telephone, postal services, photocopies, goods or equipment which do not have a life expectancy greater than the duration of the period of project etc.

Indirect costs representing applicant's overheads, when incurred in carrying out the action/project, are considered as eligible. These indirect costs cannot exceed a flat-rate funding of 7% of the total eligible direct costs of the action/project.

Indirect costs are eligible as long as they are not written in another category of the Budget.

Indirect costs are not eligible when the beneficiary also receives an operating grant from the European Commission/Executive Agency (EACEA).

#### **9.6 Ineligible costs**

Any costs incurred by the beneficiary but re-invoiced to third parties are not eligible for inclusion in the budget.

In addition, the following costs are considered ineligible:

- Interests owed by the beneficiary to the Commission/Executive Agency (EACEA) for late recovery (if applicable),
- Costs declared by the beneficiary and supported in the framework of another action or under another Community grant,
- Excessive or reckless expenditure.

In the event that the applicant is unable to reclaim amounts of VAT related to the expenditure of the project, then these charges may be included in the budget form provided that they are detailed and duly justified. The Applicant must specify whether the amounts stated throughout the budget (revenue and expenditure) are calculated with or without VAT.

#### **9.7. Costs considered as “In-Kind contributions/costs”**

Eventual in-kind contributions are not considered as eligible as of the meaning of definition specified in 9.5. Any cost which will not result in any financial expenditure by the beneficiary are considered as being “in-kind” contribution/costs.

In-kind costs are taken into account within the total costs of the budget when calculating any Community contribution. These costs should be included in the overall budget provided that they:

- are directly linked to the project concerned,
- are identifiable and verifiable on the basis of supporting documents which should clearly indicate the project, its date and the value of the contribution and be duly certified by the relevant partner,
- can be demonstrated to be of an equivalent value to the established market price.

The same conditions and rules provided for the eligible contributions/costs, set out in the present Guidelines, in particular under Point 9.5, shall also apply to any contributions/costs in kind.

Credit notes, invoice or annual rebates, may be considered as contributions in kind, provided that they are supported by partnership agreements made for the execution of the relevant project. Any credit notes or rebates of a commercial nature between a supplier and the applicant cannot be considered as a contribution in kind.

In kind contributions concerning property are however to be excluded from all sections of the project budget.

**In kind contributions cannot cover all the necessary co-financing of the project.**

**At least 25% of the co-financings (MEDIA contribution excluded) must be provided in cash.**

**In kind contributions cannot represent/account for more than 25% of the total budget of project.**

## **10. SUB-CONTRACTING AND ACQUISITION OF EXTERNAL SERVICES**

Where the project proposed has resort to a significant element of external services then the applicant should provide for the establishment of a tendering process to select the relevant service provider.

All successful applicants are required to mention clearly the support of the MEDIA Programme in any publicity or during the activities for which a subsidy is granted. Moreover, all successful applicants are required to display (clearly) the name and logo of the MEDIA Programme on all publications and publicity materials produced for any project which has been allocated a co-financing contribution. Should this condition not be respected, the amount of the Executive Agency (EACEA) contribution provisionally allocated may be reduced.
