Tepuy is a full-length film about an expedition of cave explorers to the inaccessible tabletop mountain of Chimanta in Venezuela. This story of adventure is set on islands of time where ancient plants and animals survive to this day. In a gigantic subterranean labyrinth made of the oldest minerals in the world, colonies of bizarre organisms created the largest quartzite cave. This film is an expedition to the vault of time which makes men feel like aliens, and ask the most fundamental questions about the origin and mysteries of life on Earth.
